MC Powerhouse is family owned, certified, insured, and licensed minority full-service commercial cleaning and janitorial service company. Modern commercial cleaning equipment, techniques, and CDC & EPA approved products are used along with state-of-the-art equipment like electrostatic sprayers, foggers, and misters that significantly increase efficiency and kill 99.9% of viruses and bacteria. Hospital-grade disinfectants are used to clean your entire facility, including the bathrooms using and sanitizers. We don't just clean bathrooms — we disinfect them.

MC Powerhouse is experienced in disinfection, programs for larger manufacture and distribution centers, hospitals, office buildings, venues that have experienced outbreaks, which are communicable and seasonal flu viruses.

The MC Powerhouse cleaning team has provided commercial cleaning services to the hospitality industry, general construction for clean outs and project turn overs, health care services, government buildings and property managers.

Through our sister division Safe and Easy Transport, we provide transportation services to and from work, as well as for personal use throughout Mecklenburg County.

## PROJECT HIGHLIGHTS

**Haemonetics** manufacturers innovative devices for plasma transfusion. Their cleaning rooms are cleaned with invasive chemicals from the equipment used to the flooring. Special mocks are worn along with head and feet coverings. **Gamma Surgical Center:** During terminal cleanings MC. Powerhouse provides a clean and healthy atmosphere for everyone's safety.

**Pittsburgh Airport Delta Global Clean:** Delta depends on MC. Powerhouse to bring a safe and clean environment for all employee staff and passengers. We cover all touch points and heavy traffic areas from the ticket counter, jet bridges and gated area. After the cleaning Delta is sprayed with the electrostatic sprayer which is a strong fogging that will rapidly kill any virus including the COVID.
